2	No headsets for 2m SSB station	Julian P				
3	Could not make 2m FM Satellite QSO	Bob B				
4	SM could not find site location 2nd year					

## The After Action Review (AAR) Process

### FD2012 After Action Review - Improvement Plan

**Shortfall number and description (from Improvement Matrix):**

5. CW Tent difficult to assemble – long deployment time

**Discussion and analysis:**

Tent poles kept coming apart during assembly. Not enough tension in pole bungee cords.

**Root Cause:**

Bungee cords worn out.

**Remediation plan:**

Replace bungee cords in all poles with fresh military-grade bungee cord stock.
