

## Newport County Radio Club HF Net Preamble

“ The Newport County Radio Club HF Net was founded in late 2016 for the purpose of hosting and fostering congenial conversation amongst FCC Licensed Amateurs on subjects of mutual interest and in accordance with the provisions of FCC Rule 97.

This Net meets weekly on Wednesday evening on 3.900 MHz and takes check-ins commencing at 1930 EST/EDT.

This is (Name ) \_\_\_\_\_, ( Call Sign ) \_\_\_\_\_ Net Control Operator for this evening’s session of the Net. Stations wishing to join this evening’s NCRC HF Net please come now giving your call Sign and Name. “

### Suggestions...

It is recommended that the NCO repeat the Invitation to check in every 5-10 minutes until 2000. At NCO’s discretion further check-ins may be invited thereafter, however to keep the number of check-ins manageable, he/she may terminate taking additional check-ins at 2000.

It might be wise to appoint a Net Manager, in order to maintain records of the weekly sessions of the net, including: the date of the session, the name and Call Sign of the NCO, and the number of Check-ins, in addition to the time of commencement and conclusion of the net.

Also, it would be advisable to create a NCRC HF Net Information Site on the Club Web Page...

In order to help “ grow” interest in Amateur Radio in General, there could be mention of inviting “ Short Wave radio Listeners “ to listen in to the Net, on the Web Site .....
