

NCRC DSTAR NET SCRIPT
Version 1.2, Updated 08/21/2016

Date: Aug 21, 2016

Net Opening

This is the Newport County Radio Club DSTAR Net

This is [NAME] , {callsign } in Newport, RHODE ISLAND

I am on the W1AAD local repeater, Port C which operates on a frequency of 145.300 Mhz

The repeater is linked to Reflector 69C

I will be the Net Control Station for tonight's DSTAR NET

The purpose of the net is to promote and practice D-STAR radio use.

This is a open net and all licensed amateurs are invited to participate.

Please be aware that D-STAR repeaters, reflectors, and the internet take a few moments to synchronise. Please pause a few seconds after the end of a transmission before keying your mike. Tailgating will cause you not to be heard.

The format for tonight's net will be as follows:

First, we will take check-ins from any mobile or portable operators.

Then we will take checkins based on the month you were born. So, while you try to remember your birthday, are there any mobile or portable operators. Please come now:

(check with any mobile/portable to see if they want to comment now or wait in rotation)

Are there anyu folks born in Jan, Feb, or Mar?

Apr, May, June?

Jul, Aug, Sept?

Oct, Nov, Dec, or any other month

Call each station on the list, ask for (or announce if known) name and location. Good to ask leading question like "What have you been doing today?"

Any last comments or questions?

Thanks to the local D-STAR repeater groups for the use their systems. I am now closing down the Nedwport County Radio Club D-Star net.

Thank You and 73
