

HandHeld Radio Programming

March 12, 2020

The following is a list of frequencies setup by region and network used to program your HandHeld Radio (HT). Each radio has been setup with a full list of repeaters in the Rhode Island and adjacent MA area. But such a large list can be difficult to use. Therefore it has been broken up into geographical regions to make things easier to find. It begins with a set of "Personal" channels that are setup for the Newport area, but you will find repeaters throughout the state in other regions listed below. It also includes some general radio channels that have been set for receive-only.

Personal Area Channel 001-009

Simplex Channel 010-019

Northern RI Channel 020-039

Central RI Channel 040-049

Southern RI Channel 050-059

East Bay Channel 060-069

SE Mass Channel 070-079

KA1RCI Network Channel 090-099

FRS/GMRS Channel 100-119 (Receive Only)

MURS Channel 120-127 (Receive Only)

Memory	Name	Frequency	Offset	Tone	Mode	Comment
1	W1SYE	145.45	-0.6	100	FM
